The 2021 Maverick Awards presented by World ATM Congress

SUSTAINABILITY AWARD

SUSTAINABILITY AWARD

The sustainability award acknowledges those who have made sustainability an integral part of their business practice. This award focuses on the accomplishments of leaders, initiatives, and organisations working to not only reduce the impact of their business and operations on our environment, but also those who are actively making a significant contribution to improving the environmental footprint of aviation through air traffic management (ATM).

To win this award the achievements should be demonstrable and evidenced.

Criteria

- **Benefits delivered** (judging element 50% score) assessed as:
  - Demonstrable contributions to, or measurable achievements in, reducing the environmental footprint of aviation as a result from procedure, business practice, and/or technology. What is the reduction?
- **Potential for Sustainability and Scale** (judging element 50% score) assessed as:
  - The potential to inspire or drive future sustainability efforts.
  - The potential to expand its impact on a wider scale.
  - The likelihood that the outcomes can be sustained, for example, through replication, capacity building, or continuous innovation cycles.
